Water/Sewer is Billed Monthly.

(1) Billing Codes: Show what you are being billed. (refer to picture of back of bill for code explanations)

(2) Current Meter Reading: Show Previous Reading and Current Reading.

(A) Actual Read.

(E) Estimated Read...the city will leave notice for an inspection of the metering equipment.

(3) Water Used: The Difference Between Previous Reading and Current Reading in Units

1 Unit = 748 Gallons of Water...This Billing show 30 Units or 22,440 Gallons Used

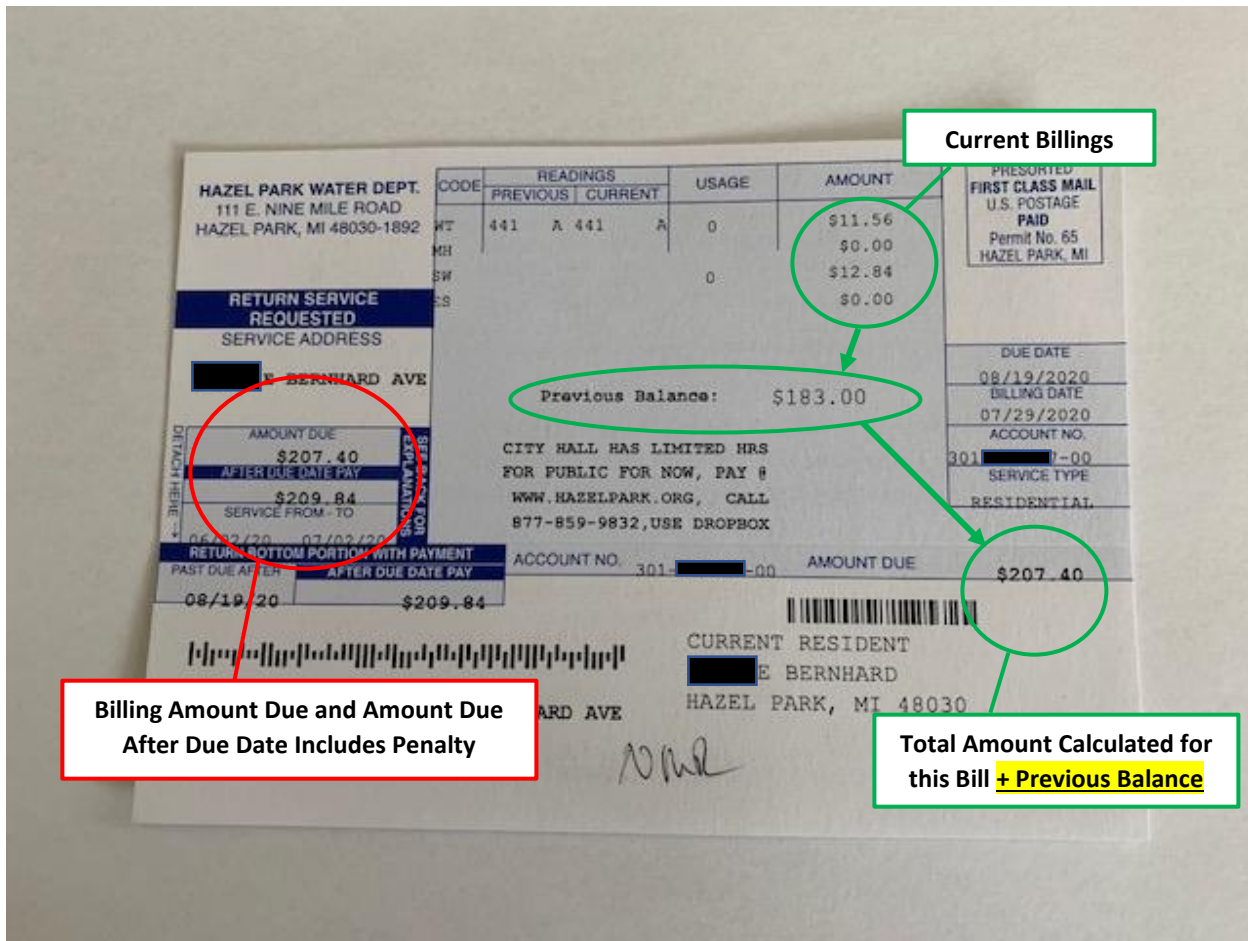

(4) Current Billings: This is Current Months Water Usage and Billed, if there is a Previous Balance it will be calculated into the "Amount Due". This bill has NO Previous balance.

(5) Due Date & Billing Date: Due Date is when Payment is Due Without Penalty. Billing Date is when bill is taken to the Post Office for Delivery.

(6) Total Amount Calculated for the Bill: Amount Due for this Water Account

(7) Amount Due and Amount After Due Date: "Amount Due" is total owed without Penalty. Bills paid "After Due Date" are Subject to a 10% Penalty on the Current Billings.

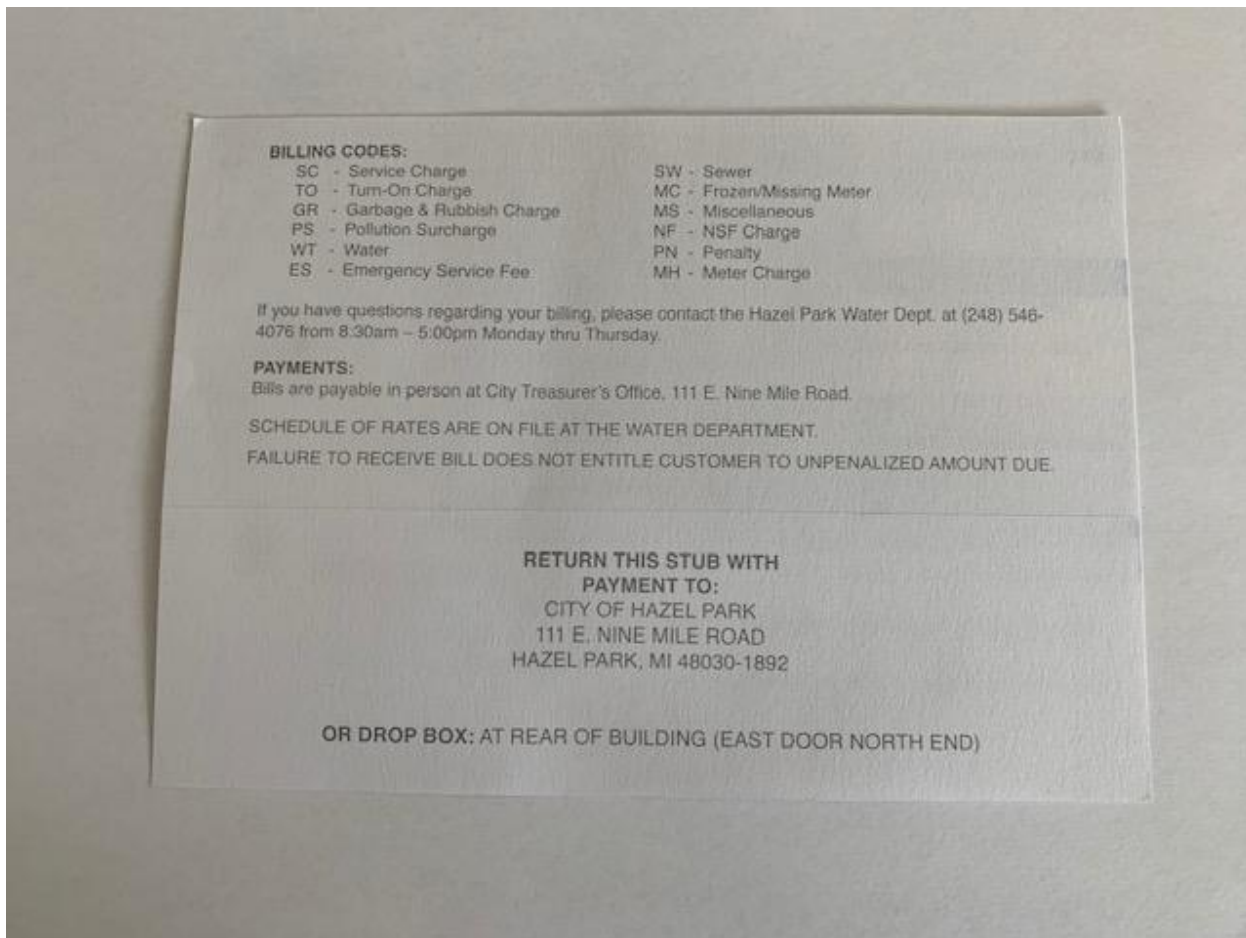

Water Bill: WITH a Previous Balance

The Water Bill above currently HAS a Previous Balance and it is calculated into AMOUNT DUE.

Note: The Amount Due and Amount Due After Due Date's Penalty is only 10% of the Current Bill, not the Previous Balance.

The Back of the Water Bill Explains the Billing Codes and Contact Information should you have questions.

Please note: The "Billing Codes" may have accompanying fees. Should you see any codes on your bill with a fee and you are not sure why, contact the Water Department for an Explanation.
