

Sanitary Sewer System Responsibilities

- - City Responsibility for Sanitary Sewer Service
- - Homeowners Responsibility for Sanitary Sewer Service

■ ***The City's responsibility for the sanitary sewer service is as shown above.***

The city is responsible for the sanitary sewer that takes waste water from the city.

No one but a trained City of Hazel Park employee should open any city owned manhole within the City of Hazel Park. This is city property and anyone opening manholes may be subject to fines or costs of repair.

■ ***The Homeowner or Business is responsible for the sanitary service as shown above.***

The homeowner is responsible for the tap at the city's sanitary sewer. (no matter location)

The homeowner is responsible for the sanitary sewer that runs from the sewer tap all the way into the home. (no matter location)

The homeowner is responsible for all drains and drain systems within or around the home.

Any infiltration of the homes sewer pipe is a result of a pipe failure and is the homeowners responsibility.

If the homeowner wants or needs a new tap they are responsible for cost and the proper tapping method and tap connection which is subject to an inspection by the water/sewer department.
